## Hardware Manual

Manual Number	JY997D65501
Revision	D
Date	December 2022

This manual describes the dimensions and installation of the product. Before use, read this manual and manuals of relevant products fully to acquire proficiency in handling and operating the product. Make sure to learn all the product information, safety information, and precautions.

Store this manual in a safe place so that it can be read whenever necessary. Always forward it to the end user.

Registration:

The company names, system names and product names mentioned in this manual are either registered trademarks or trademarks of their respective companies. In some cases, trademark symbols such as "™" or "®" are not specified in this manual.

Effective April 2022

Specifications are subject to change without notice.

### Safety Precautions (Read these precautions before use.)

This manual classifies the safety precautions into two categories:

**WARNING** and **CAUTION**

<b>WARNING</b>	Indicates that incorrect handling may cause hazardous conditions, resulting in death or severe injury.
<b>CAUTION</b>	Indicates that incorrect handling may cause hazardous conditions, resulting in minor or moderate injury or property damage.

Depending on the circumstances, procedures indicated by **CAUTION** may also cause severe injury.

It is important to follow all precautions for personal safety.

<b>STARTUP AND MAINTENANCE PRECAUTIONS</b>	<b>CAUTION</b>
<ul style="list-style-type: none"> <li>Do not disassemble or modify the PLC. Doing so may cause fire, equipment failures, or malfunctions. For repair, contact your local Mitsubishi Electric representative.</li> <li>Do not drop the product or exert strong impact to it. Doing so may cause damage.</li> </ul>	

<b>DISPOSAL PRECAUTIONS</b>	<b>CAUTION</b>
<ul style="list-style-type: none"> <li>Please contact a certified electronic waste disposal company for the environmentally safe recycling and disposal of your device.</li> </ul>	

<b>TRANSPORTATION PRECAUTIONS</b>	<b>CAUTION</b>
<ul style="list-style-type: none"> <li>The product is a precision instrument. During transportation, avoid impacts larger than those specified in the general specifications by using dedicated packaging boxes and shock-absorbing pallets. Failure to do so may cause failures in the product. After transportation, verify operation of the product and check for damage of the mounting part, etc.</li> </ul>	

### Associated Manuals

Manual name	Manual No.	Description
MELSEC iQ-F FX5-CNV-BC Hardware Manual	JY997D65401	Explains connector conversion adapter.
MELSEC iQ-F FX5S/FX5UJ/FX5UJ/FX5UC User's Manual (Hardware)	SH-082452ENG	Describes the details of hardware of the CPU module, including performance specifications, wiring, installation, and maintenance.

#### How to obtain manuals

For the necessary product manuals or documents, consult with your local Mitsubishi Electric representative.

#### Applicable standards

FX5-30EC, FX5-65EC comply with the EC Directive (EMC Directive) and UKCA marking.

Further information can be found in the following manual.

→ MELSEC iQ-F FX5S/FX5UJ/FX5UJ/FX5UC User's Manual (Hardware)

Regarding the standards that relate to the CPU module, please refer to either the product catalog or consult with your local Mitsubishi Electric representative.

#### Attention

This product is designed for use in industrial applications.

### 1. Outline

The FX5-30EC and FX5-65EC are extended extension cables used to connect an extension module located distantly or on a second stage.

#### 1.1 Incorporated Items

Check that the following product and items are included in the package:

<b>Product</b>	FX5-30EC extended extension cable [30 cm]
	FX5-65EC extended extension cable [65 cm]
<b>Included items</b>	Hardware manual (This manual)

### 2. Installation

<b>INSTALLATION PRECAUTIONS</b>	<b>WARNING</b>
<ul style="list-style-type: none"> <li>Make sure to cut off all phases of the power supply externally before attempting installation or wiring work. Failure to do so may cause electric shock or damage to the product.</li> <li>Use the product within the generic environment specifications described in the User's Manual (Hardware) of the CPU module used. Never use the product in areas with excessive dust, oily smoke, conductive dusts, corrosive gas (salt air, Cl<sub>2</sub>, H<sub>2</sub>S, SO<sub>2</sub> or NO<sub>2</sub>), flammable gas, vibration or impacts, or expose it to high temperature, condensation, or rain and wind. If the product is used in such conditions, electric shock, fire, malfunctions, deterioration or damage may occur.</li> </ul>	

- The extension module should not be connected through the right hand expansion port as shown in the following figure.

#### Compliance with the WEEE Directive

Note: This symbol mark is for EU countries only. This symbol mark is according to the directive 2012/19/EU Article 14 Information for users and Annex IX.

This symbol means that electrical and electronic equipment, at their end-of-life, should be disposed of separately from your household waste.

<b>INSTALLATION PRECAUTIONS</b>	<b>CAUTION</b>
<ul style="list-style-type: none"> <li>Do not touch the conductive parts of the product directly. Doing so may cause device failures or malfunctions.</li> <li>When drilling screw holes or wiring, make sure that cutting and wiring debris do not enter the ventilation slits of the PLC. Failure to do so may cause fire, equipment failures or malfunctions.</li> <li>Work carefully when using a screwdriver such as installation of the product. Failure to do so may cause damage to the product or accidents.</li> <li>Connect the extended extension cable, peripheral device cables, input/output cables and battery connecting cable securely to their designated connectors. Loose connections may cause malfunctions.</li> <li>Turn off the power to the PLC before attaching or detaching the following devices. Failure to do so may cause equipment failures or malfunctions.                     <ul style="list-style-type: none"> <li>Peripheral devices, expansion board, expansion adapter, and connector conversion adapter</li> <li>Extension modules, bus conversion module, and connector conversion module</li> </ul> </li> </ul>	

#### 2.1 Cable configurations

- For powered input/output module and extension power supply module (extension cable type)

- For input/output module (extension cable type) and intelligent function module  
The FX5-CNV-BC is required when connecting an extended extension cable to an input/output module (extension cable type) or intelligent function module.

For the installation, refer to the following manual.

→ MELSEC iQ-F FX5S/FX5UJ/FX5UJ/FX5UC User's Manual (Hardware)

#### Caution

- Only one extended extension cable can be used for one system.

- When using the FX5-CNV-BC a half twist will appear in the cable.
- Wire the extension cable for extension with a distance of not less than 50 mm from the output wiring of the PLC and a noise source including the other driving power supply.

This manual confers no industrial property rights or any rights of any other kind, nor does it confer any patent licenses. Mitsubishi Electric Corporation cannot be held responsible for any problems involving industrial property rights which may occur as a result of using the contents noted in this manual.

#### Warranty

Exclusion of loss in opportunity and secondary loss from warranty liability  
Regardless of the gratis warranty term, Mitsubishi shall not be liable for compensation to:  
(1) Damages caused by any cause found not to be the responsibility of Mitsubishi.  
(2) Loss in opportunity, lost profits incurred to the user by Failures of Mitsubishi products.  
(3) Special damages and secondary damages whether foreseeable or not, compensation for accidents, and compensation for damages to products other than Mitsubishi products.  
(4) Replacement by the user, maintenance of on-site equipment, start-up test run and other tasks.

<b>For safe use</b>
<ul style="list-style-type: none"> <li>This product has been manufactured as a general-purpose part for general industries, and has not been designed or manufactured to be incorporated in a device or system used in purposes related to human life.</li> <li>Before using the product for special purposes such as nuclear power, electric power, aerospace, medicine or passenger movement vehicles, consult with Mitsubishi Electric.</li> <li>This product has been manufactured under strict quality control. However when installing the product where major accidents or losses could occur if the product fails, install appropriate backup or failsafe functions in the system.</li> </ul>
