[4] The operation of this product has been confirmed with the version 2206 (Build 15330.20196).
[5] The operation of this product has been confirmed with the version 2201 (Build 14827.20192).

• .NET Framework 4.6 Advanced Services and .NET Framework 4.8 Advanced Services need to be enabled. For details, refer to TECHNICAL BULLETIN No. FA-A-0207.
• When the following functions are used, this product may not run properly.
  • Application start-up in Windows compatibility mode
  • Fast user switching
  • Remote desktop
  • Touch function
  • Virtual environment such as Client Hyper-V
  • Tablet mode
  • Virtual Desktops
  • Windows Hibernate and Standby
  • Unified Write Filter
  • Text cursor indicator
• In the following cases, the screen of this product may not work properly.
  • The size of the text and other items on the screen is other than 100% (96 DPI, 9 pt etc.).
  • The resolution of the screen is changed in operation.
  • Windows theme is changed in operation.
  • The multi-display is set.
• Excel spreadsheets created in the English environment are applicable to the English environment only. They cannot be used in the other environment.
• In this product, the period (.) is used as the symbol of the decimal point. Regardless of the setting of "Decimal symbol" on the control panel, use the period when entering the decimal point.
• A communication error may occur when communicating with the programmable controller CPU after setting the resume function, suspend setting, power-saving function, and/or standby mode of the personal computer. Therefore, when communicating with the programmable controller CPU, do not set the above functions.
• Surrogate pair characters and environment dependent characters are not available in MX Sheet.

Installation

■Confirm before installation

• Log on to the personal computer as an administrator.
• Close all running applications before installation. If the product is installed while other applications are running, it may not operate normally.
• Install this product to a folder to which the administrator authority is given. The default installation folder is recommended to enhance the security.
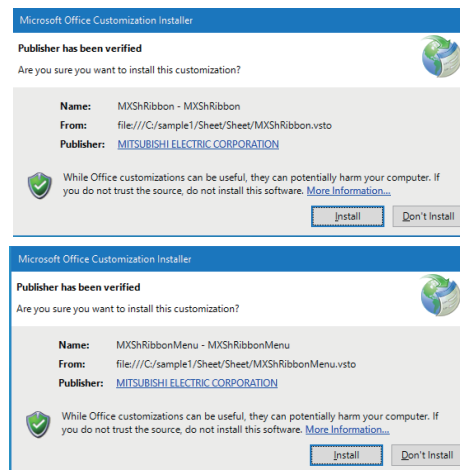

■Procedure

1. Insert the MX Sheet DVD to the DVD drive. Double-click "setup.exe" on the DVD.
2. Select or enter the necessary information by following the on-screen instructions.[1]
   [1] Product ID is written on the "License certificate" included with the product. Enter the 12-digit number divided into 3 and 9 digits.

■Acknowledgements

When starting Excel for the first time after installing MX Sheet, the following screens may appear. If the screens appear, click the [Install] button.
